MEGHALAYA - PHOTO ELECTORAL ROLLS

Introduction: The implementation of the Photo Electoral Rolls in Meghalaya was done in-house i.e. performed by all the election offices in the state. No private agencies were engaged. This was possible because the District and Subdivisional Offices in the state are having their own Technical Personnel. Presently, each election office in the state has 1(one) Computer Technical person, who heads the computer cell set up for operating the computerization election works. Other staffs in the computer cell are those who were selected from amongst the staffs in the District / Sub-Divisional offices to whom appropriate trainings were imparted. During crucial periods, when the computerization work was more, computer operators were also engaged on contract.

Publicity: Publicity through the print Media and electronic media proved effective in urban areas. Dovetailing the photo electoral rolls campaigns with campaigns on development programmes, at the Block level and in selected places, proved to be effective instruments, in the rural areas

Cameras: The choice of type of Camera for operating the photography was based on factors such as i) Clarity, (Resolution) (ii) Storage Capacity/ Storage flexibility (memory cards) (iii) Easy operation (iv) Reliability and easy portability (v) Cost. Sony DSC-W5 5.1 Mega Pixels camera was selected as a standard camera after weighing all the aforesaid suitable factors.

Identification of cameramen and training: - Electoral Registration Officers and Assistant Electoral Registration Officers were trained on the handling of camera. Master trainers were trained in the state capital. The District Election Officers and Sub-Divisional Officer (Elections) identified some competent Government employees, like the Enumerators, the Gram Sevaks in the Block, staff of the office of Deputy Commissioner and other district offices and appointed those as cameramen. In addition, some non-Government employees were also recruited as cameramen.

Trainings on Camera were imparted, to

- (i). Enable the cameramen of keeping and maintaining the correct camera settings for getting the desired elector's Image quality.
- (ii). Enable cameramen to have adequate knowledge in handling the overall basic necessary camera operations.
- (iii) Enable cameramen to have adequate knowledge in storing the captured images in proper memory devices

Cameras deployment office wise: All the election offices in the state were allotted with certain number of cameras based on i) the number Assembly Constituency, ii) the number of electors iii) the vastness of geographical areas, etc.,

Deployment photography teams - The trained cameramen were deployed to the various Designated Photographic locations, identified by the District and Sub-Divisional officers, keeping in line with instructions of Chief Electoral Officer. The Photography strategy of deploying cameramen village wise proved a very effective means as every elector got the best opportunity to get photograph due to i) nearness, ii) less crowd etc.,

Image record keeping - Strategies has been formulated to prevent misplace/loss of Image captured.

- Appropriate archival methods have been devised to prevent misplace/loss of captured images by assigning individual image with distinct name.
- Maintenance of Registers and token system containing individual elector's information and images for reference is properly docketed. Register books and tokens are kept safely custody.

Computers – In order to achieve good system throughput and relatively high storage capacity, mid-range type of **SERVERS** and **CLIENTS** computers of Pentium-4 / 3GB RAM/ 160 GB HDD / DVD Writer are basic system configuration for running the Photo Electoral Rolls Software.

Deployment of Computers in election offices – All election offices in the state has computer cell set up for operating the computerization election works. The

number of computers (SERVERS and CLIENTS) allotted to individual office is based on the number of i) Assembly Constituencies each office serves ii) Electors

SOFTWARE ASPECTS

A. ELECTORS PHOTO IDENTITY CARD (EPIC) SOFTWARE: the software process of 1:1 linking between individual electoral database information and its captured image has been done by using the EPIC standard software, developed by the CMC, Ltd,., Kolkata, in compliance with the prescribed ECI's software technical specifications for automated / self generation of each DISTINCT EPIC NO for individual elector.

Software Modules: This software comprises 4-main modules i.e., i) ADMINISTRATION, ii) BACK OFFICE, iii) AGENCY and iv) FIELD UNIT modules.

Software functions - Nut shell description: Firstly, the software picks up all the necessary electoral database tables maintained in ORACLE and translate these into ACCESS database. Secondly, it captures all the additional relevant information pertaining to individual Assembly Constituency (AC) and the individual Election office details. Thirdly, captures the BLOCK RANGE of EIPC NO (numeric number) to be generated for a particular AC and particular EPIC Campaign based on the technical calculation of the previous no. of EPICS already generated against the AC. Fourthly, the software performs most of the crucial tasks in the FIELD UNIT module, i.e., the DISTINCT assignment of EPIC NO. to individual elector based on the technical calculation using LUHN formula (Mod 10) as ECI prescribed. The technical implementation of this formula ensures that no DUPLICATE EPIC NO can be generated if all the technical operations are strictly followed.

ACCESS to ORACLE – EPIC NO Upload - After the process of 1:1 linkage between elector's electoral database with its image has been done, the linked EPIC NOS. are uploaded to ORACLE based on 1:1 mapping of ACCESS with ORACLE record by using [AC_NO,PART_NO,SLNOINPART] as concatenated PRIMARY KEY for DISTINCT identification of individual elector.

B. PHOTO ROLLS SOFTWARE: Developed by the National Informatics Center (NIC), UNIT, Shillong, using ORACLE 10g as Back-End, Visual Basic as Front-End and Crystal Report as Report handler tool.

Capturing of Images into Oracle Database: the first task of the software is to capture the images (.JPG files) from the appropriate software hierarchy hard disk location as stored by the aforesaid EPIC software into ORCALE 10g database. The process of populating of the images (.JPG files) into ORACLE is done by using [AC_NO,PART_NO,SLNOINPART] as concatenated PRIMARY KEY for DISTINCT identification of individual elector.

Capturing of AC & PARTS MAPs into Oracle Database: the corresponding MAPs of individual AC & PART_NO are captured into the ORACLE database in the format of .JPG files.

Photo Rolls Reports: the development of the Photo Rolls Reports has been the most difficult task, as these reports required the maximum number the ELECTORAL and EPIC tables to be synchronized for molding into a compatible ECI's prescribed PHOTO ROLLS format, i.e., 3-Electors per Row, 30-Electors per Page with Image size of width =1.5 cms and height=2.0 cms and other parameters. A ready format sample is attached.

Photo Rolls Checklist Reports: a standard Checklist Photo Rolls has been developed by National Informatics Center (NIC), UNIT, Shillong, using ORACLE 10g as Back-End, Visual Basic as Front-End and Crystal Report as Report handler tool. The aim of having this application is to utilize its reports as preliminary correction tools for photo electoral rolls with regard to the elector's individual electoral and image correctness information.

Booth Level Officers (BLOs): A checklist was printed part wise .The check list contains the particulars electors and their images .The spot verification was done to ascertain whether the image of an elector and the electors particulars is correct or not. The service of the BLOs was put in place for this field verification .The BLOs moves from house to house to do this job. Corrections were made, in the ELECTORAL and EPIC database, by the Electoral Registration Officers, based on the inputs from the BLOs.

SAMPLE

Photo Electoral Rolls of Meghalaya

ELECTORAL ROLL, 2011 STATE - MEGHALAYA

No., Name and Reservation Status of Assembly
Constituency:

35 - RANIKOR(ST)
Part No.
7

No. , Name and Reservation Status of Parliamentary Constituency(ies) in which the Assembly Constituency is located :

1-SHILLONG (ST)

1. DETAILS OF REVISION

Year of Revision : 2011

Qualifying Date : 01.01.2011

Type of Revision : Special Summary, 2011

Date of Publication : 05.01.2011

Roll Basic roll of Revision, 2010 integrated Identification: with all supplements prepared in

accordance with the extent of the newly

Delimited Constituency.

2. DETAILS OF PART & POLLING AREA

No. and Name of sections in the part:

- 1 Nongrynniang,
- 2 Nongpuinskei,
- 3 Mawhiangruda,
- 4 Nongummer,
- 5 Mawjai,
- 6 Nongweiteng,
- 7 New Mawjai,
- 8 Lower Mawjai,
- 9 Nongtiniam,10 Mawphanrang

Main Village : NONGRYNNIANG

District : WEST KHASI HILLS

Sub Division:

Block

Municipality

Ward No.

Police Station :

Pin Code : 793119

Post Office :

3. POLLING STATION DETAILS

No. and Name of Polling Station:

7 - NONGRYNNIANG

Type of Polling Station (Male/Female/General)

GENERAL

Address of Polling

NONGRYNNIANG GOVT. L. P.

Number of Auxiliary Polling

Station :

SCHOOL, NONGRYNNIANG
